[download > this satanic state in pdf](#)

this satanic state

where every citizen ... only helping satan
his envy of this creation of our universe
and their own jealousy of their total failure
to appease

and where every citizen ... only this eve symbiote helping
their delusion of the great freedom ... may destroying everything
as zombie may serve

where a whole population existing for ?
to negate the creation of this universe
for this ... their mass delusion

we not only have no order here
but just to the contrary !
an anarchy

because if someone should not refuel and step on the gas
then what would he be there for ?

he should not sell any organic dying groceries
then he would be getting bankrupt

he should not go to the pharmacy
where would he be going then ?

all these are just
in a mutual destructive relationship
where primitive diversion is competing
with the lowly competition
of all those sports

all for this aspiration of self destruction
so as not to seeing the delusion of their whole existence

where every one not helping in this delusion
will be punished with being simply not acceptable
being without any existence it all
being simply " insane "

because all have to be insane
smoking one cigarette after the next
drinking one poison after
the next

walking around with their predators
with satanic states licensing dog tags

so all those billions of predatory animals
have their non human existence guarded
because they may not be human
this is simply not possible

these satanic eves ...

are invincible stupid
infallibly conceited

because they mean
just because everyone is desperate with them
because she is only freed limitless
wanting to destroy everything
and be loved for this

so only her vanity
to enslave the whole universe
they would be worth the most

they already have the climate flipping
all environments already destroyed
all homo sapiens

fainted in a faint

and the only thing
being left to do now
be the galactic pest control
eliminate all these pests

including her friends
the trained predator animal

since they are a danger
for all intelligent life

that of course guarantees human rights
of course no world ending
there is no freedom

to wasting any world
ensuring people to enslave

homo sapiens
know what they are doing

they are aware of their responsibility
are not forever infantile pubescent
that cost their tyranny forever

homo sapiens

will help every day
everything being saved for all time

but this pestilence
being a pity for everyone and everything
they lose everything

have already !

flipping the climate
fields leached out
most state territories
all sapiens lost

a mind
they have never had

and therefore they do not know
that they are not just stop this

but they have to
the next centuries
repair all damage again
done

first of all
freezing the arctic ice again
so that the albedo there again

to be high again

and the arctic ocean
does not heat up further

and therefore the Greenland ice shelf
to solve and then a 10 meters
sea increase

so extra meters
through the geological uprise
after relieving the land mass
from all this ice

and the melting
the antarctic ice mass
and a 100 meter increase in the seas

again by extra meters
through the geological uprise
the relieved land mass there

and a steaming world
create an uninhabitable world
so the goal of satan
being fulfilled

where then some
to reach new worlds
to waste the whole universe

on that the envy of all those
about the success of the creator
no longer your vanity

to being the most important being
to bother

like how these pharisees
to punish jesus christ

that they have the jealousy
of his description of the reality
releaved

or if this infallible dork
in rome the giordano bruno will execute
because he could not stand

not his romans
that their world being of satan
not god

or what a galieo knows
will be his successor
always denied

or today
realize a human rights state
because this world would not end
for this evil purpose

because then people would have rights
not ... so this pest

and the destruction
of all intelligent life !

this meaningless vanity ...

is the product of a catastrophic democracy
where the delusional can be in power
and no human dignity

so everyone is competing with
to have the thinnest note book
and that is due to

the whole construction
and all these garbage advertising

use this only a few years
to make it thinner and thinner ... faster and faster
more and more garbage to sort out

more and more frustrated hackers are getting their viruses
recognized ... so that you can get rid of

to end his world

no meaning and future
there is no time or support
everyone just has to live on it
concentrate in this mass delusion

otherwise he be no longer acceptable
otherwise he be shut out
from this delusion

where no human
wants to be there at all

because that is just too stupid
to compete with it
too pointless

rather to show
this embarrassment
instead

like a jesus christ
a giordano bruno ... the galileo

the only difference today is
that there are no more crucifixions
no execution

it is reduced to
a question of character

" can I hold billions of zombies
their shame in front of their nose ? "

homo vanitas ...

has nothing to want
except infinitely liberated

to enslave billions
to be loosing all our future
all our humanity

homo destructus ?

it is not ... that all of them
are no homo sapiens ...

or that they are only familiar with their animal habits
to indulge in their animal power play
to be pampered

but these are zombies of this satanic state
all his instruments !

the origine
of the homo destructus

is not women or men
but is the production
of those billions of mothers

wanting for all those sons
to do the wasting >

of their
very own world

any real son will not
have any consciousness about

mother will not have

any thing
to do with it ...

it is simply satanic

the intrinsic specialness
of this population

will not come into effect
for as long as democracy
is in power

because the masses
will for ever only
concern them self
with them self

and excluding the rest
of our universe

so what would have to happen ?

we have to start
to bringing better arguments
forward

like practicing argumentocracy
where the best argument
is winning

not what will bring
the most votes

do you see this ?

these zombies of zombies
have nothing to want

just make any help impossible
every knowledge

to being completely unknown

all that just about
their vanity procurement orgy
to savor

because their whole existence
everything they do

only their harm
and enslave aspiration addiction
is emanating from

these mentally handicapped passengers on the titanic
just want to have their cabin clean
their food and drinks served
their entertainment

and should their ship be sinking
then that is not their ship ... their responsibility
but they can only be entertained
continued to serve their drinks

and then waiting for destiny

definitely
they will not try anything like
to change their fate

so we have here

predator rights
eves to death tyranny rights
state forced labor rights
nation murder rights

stupid rights
satanic state propaganda rights
alienation rights

of course

climate flipping rights
resources wasting rights
dying food selling rights

human butchering rights
pharmacy drugs poisoning rights

the only ones ... who have no rights
are the humans ... meaning those
knowing what they are doing

because everyone was maddened
so he ...

could cherish these mass delusions
where there can be no world saved

only all this damage

at least...

50 million years were squandered
the last 50 years

so two million generations
were brought out of their existence

because all radio stations worldwide
do not even discuss the system errors
which is creating this catastrophe

because not even
someone could live here today
because he can not do anything
as if fainted

a infantile idiot
a mentally disabled crook
because all these infestations are on and under land
in and on the water and seas
over all in the air

can not be a life at all
but only one to death torture

because no one can do it for all this
to abolish or he can not
imagine

how someone calls this a success
or how the whole thing be repaired
or how it should go on ?

so how long will it take
until the whole galaxy is uninhabitable ?
the whole universe wasted ?

should not end this mass delusion ...
and how could anyone go anywhere ?
to just want to come ?

where should someone make public this
show all the failures of this show
how solutions to develop ?
explain where ?

when all these billions get rid of for it
if all these billions thinking of themselves
as a success ...

just because they are all actors and fakes !
perfected ... darwinian selection
there is no reality at all
allowed to call

he must be on the run
24 hours every day ...

or the stroke will hit him !
death delivers them

such a madhouse has more occupants
such a prison ... because he

has be flipping out ...

because he has been recognizing a very small part
of this billion madness

we should not be creating jobs
but solutions!

so we need a report
to announce the solutions

do not glorify any harm
so we need real broadcasting

no satanic state
propaganda broadcasts

so we can
every street lamp
turning off

because we are at night at home
needing to remember all our problems

to not to
becoming a mass of insanity

then we all have to
having geo thermal ventilation
to get fresh air in the house

and tempered temperatures
and bio gas plants

with our sewage
to make bio gas

and the fields with the rest
fertilized again

then we do not need any mad men
but the right therapies for all

these diseases he created

through all these lacking nourishments
from the leached fields

then we need
not a single pharmacy drug
that only will make profit

and people are getting sicker

then we only need cars
for handicraft and handicapped people

then we need reservoirs everywhere
for cheap shipping
storage for energy

fish ... flood prevention
natural relaxation ... travel

we need
a human dignified order for last 70 years

no satanic state

we know for an eternity

that democracy is the problem
not the solution

because we need intelligent decisions
not the insanity of those

competing political parties !
the inventors of democracy already know about
their invention would be creating a monster

we need to produce lasting technology
not this competing insane garbage
of capitalism

so how to we get
to this kind of government ?

what is the solution ?

what will bring us a paradise
on planet earth ?

the argumentocracy

where everyone has a voice
not the tyranny of the crowd
not the tyranny of a tyrant

the argumentocracy ...
in principle not just the only one
to be right decision making

but she also forms with her argumento culture
the best citizen

from this follows

that only the argumentocracy
the only human form of government can be
like us ... the trillion homo sapiens in the universe
found out for a billion years
and work through that
this is confirmed

that everyone can understand

there

when a decision making
to go from anything else
but to find the best solution

if a political party assumes it
if every voter assumes it

whether his solution
is politically feasible

then we have the catastrophes ...

then we have climate flipping rights ...
resources squandered rights
especially frustrated voters ...
annoyed citizens

the higher their intelligence ...
there is more and more evidence of ...

that they can not achieve anything
because they have no voice
in this democracy !

because even the inventors of democracy ...
the ancient greeks ...

at that time already some knew

that their invention
has this principal error
that this will cause a catastrophe

because we are going to look at democracy
so this is not just a fundamental catastrophe

but select this
yes ... educate the catastrophe potential of citizens
because in a democracy ...

turn everything around the earth
to come to power with the majority
and who can think ?

that these ... the right ...
the best decision makers ?

that is just against any scientific practice !

so democracy is not scientifically based
not at all scientifically proven

because every party in a democracy ... yes a party program
that promotes the interests of ... a particular party electorate
creates again to come to power from this

but

we can not tolerate any power !

because everything has to be understandable
that is the human feature against the animals
they always think only about roguery
these always think of the majority
they always think about what is possible
thus ... the law of this law is the law
for a democracy ...

the 3rd Reich was one too !
the biggest catastrophe of all time ...

so we need a solution ... not depending on the mass ...
making the right decisions ...

and to introduce everyone
until all no longer different
only accept the best solution
because they just ...

no better arguments to bring forward

do you have a better idea?

already the word solution ...

will bring all these paranoid pests in panic

because as soon as someone introduces a real solution
he has no chance

to be acceptable anywhere in this world

the amish have the idea
that too much theory is the end of everything
but some do not always go along with this

so this world ends anyway
they do not see that !

because an uncle albert thinking my theory is everything
and he does not prevent world wars ... either
and even the atom bombs he delivers
so to make everything worse

that is not in a scripture
so not holding onto a Bible eg
definitely will bring the end

that is without a generally binding order
in any case > a world ends ...
people end

so what is the solution?
of course ... that everyone has to see ...
that without a binding order >
nothing will be preserved

you can not believe ... what you want
you can never do anything ... what you could !

neither as an individual ... nor as a mass!

so we need an order ...
that prevents this ...

who saves this world
dictate this !

no climate tilting rights
no resources to squander rights
no contamination rights
no butcher rights
in the hospital

we can not compete with any parties
let go on this world ... where one
compete with the other

talk about ... "consumer prices down
producer prices up "

that only produces idiots
because they have a platform for their stupidity

we need an argumentocracy
that makes every good idea a success
and any stupidity to failure

so we do not need any parties
certainly no competing!

and how do we do that ...
we have to organize ourselves !

the argumentocracy

just works according to the principle
of the best solution

so a solution to a problem will be advertised
then all citizens in a city will bring their solution forward !
when no one can say anything better
this best solution will be presented in its county

until there the best ... of the best solutions will be taken
then to the state government
then to the federal

then we have the best of all solutions
which of course ... has to be scientifically proven

be in the interest of all citizens

no special interests

because a democracy divides a nation
because the argumentocracy unites all

do you have a better idea ?

this kind of solution

will as well work in science
in the industry ... in internet forums

the stupidity of democracy can never work in politics

or any where else

this greek catastrophe

that even millennia ago

many greek philosophers saw as a catastrophe

then

SO

what have all these achieved ?

not only nothing > but everything lost
fields leached > climate tipping
contaminated seas >

especially her whole world stupided
stimulating more and more harm

so they not only did harm
but every future is destroyed

because there are only zombies of this pest
they are not even able to talk about their failure

the homo destructus thus has been victorious
over everything and every intelligent life
on this world

and
what are the homo sapiens of the universe doing
with this predator guarded animal pest

who only have this satanic delusion
every world as fast as possible
and for > every human
making uninhabitable

what must people with responsibility
do with this irresponsible pest

who do not even consider human rights

they have to save the universe from them
otherwise everything intelligent will be
threatened > throughout the universe

or does someone have another idea?

documenting a day in the life

of > first planet < in the year 154 after creation >
of the first human settlement in this universe

note a responsible life style ...
can not only be the biggest fun in the universe
but being the only life style ... working endlessly

because every one can be convinced of what he should be doing !
forever

we are looking at > first planet > at our very right
our sun > below left > what is looking like a tiny moon
being the space ship > watching out for the safety
parked in geo stationary orbit over the settlement
with only the sensor doors open !

we are seeing no lights an the planet be low !
no sign of any settlement ... or manufacturing
the only thing to indicating any population as of now
are the out rigger sail boats beached > the solar electric rovers
the solar powered river boats

but there is an emergency plan ready
to put all those under cover should any need arise !

the camouflaged hydro electric plant at the river fall is not operating
the lights for orientation in all the housing and control centers
is being supplied by tiny local thermo nuclear power plants
from the former uses on the robot ships
and planet rovers

there is no other kind of any human population any where from here
naturally ... no broadcasting of any radio trans mission of this world
can be received at any distance !

as all communication is done > by quanta communicators >
low power short distance equipment or through under ground lines

we are now in the main command room
the display showing >>> automatic surveillance mode on
no space sensors > no space ships

now asteroid on coordinates **6 39 15.70 > 2 16 22.17 >**

received quanta message from planet two >
but no frequency messages >>>

since automatic mode started !

the crew sleeping > like all residents be low on the planet

we are now going toward the first planet > seeing a robot ship
monitoring the settlement > seeing a predator going toward it
notifying the nearest planet rover automatically at the planet surface
there the animal repulsion system is activated >
and the tiger is making a U turn and going off

we are now in a cave > at the rivers bank >
seeing two children in the dawn of the new day !
the increasing light being brought in their room
by an automated mirror from the rising sun

the led clock showing 5 45 the date 05 03 0154
at this moment

the boy is waking up and looking
what time and saying aloud
will to be getting up soon !

when his sister is opening her eyes too

now we are in the kitchen of the cave
where the boy is telling his parents there
that he does not want to go to school today
but be playing with his friends at the river
his mom asking him

what they are having in school today ?
and he startles

because he was to show off
his experiment of mixing colors today !
so ... he thinks

he will be going to school today after all ...
to be showing off

an electric motor
where a disk of all colors in sectors
will be becoming an off white once turning ...

the mother saying > we are having
commanders day 100 th anniversary coming up in 3 days
then we will all be having off ...

and dancing and singing together all day long

do you remember what he has done for us ?

yes ... says the girl
he was the founder of our religion
he and his crew of a space ship

put the tyrant and his bandits of the empire on a planet to die ...
while having time to realize all their wrong doing ...

and settled this world for us
free of any wrong doing

I am > because we all are !
and we can be > because I can be

what is the supreme law ?

the universe ... and any world
use only as defined by creation !

and consequently from this derive >
all commandments >

all fundamental rights from !

as well as the requirement for peace !
all must recognize the present reality
and then ... guarantee a new !
meaning an accountable life
providing for all ...

no mirage > without any delusion !
without physical force > without taboos ...
all must be addressable !
meaning capable of >

being a responsible citizen ...

then he went off in his spirit later on
leaving his body behind here

to be helping a native population
living after our religion in some other galaxy !
and this day we are celebrating
what he having done for us

all their other relatives are coming in now ...
many being over a hundred years old !

they are fixing breakfast now
from the seeds they have been collecting days ahead
and rolling them out

soaking them since last evening
and now adding fruits and nuts to it !
after eating the kids are going off to school
half of the adults are going collecting lunch ingredients
the others going to their work

since this being the first settlement ...
the galactic council being here

and the co ordination of all the things to being done >

the council members
are considering the danger from the asteroid
sending a robot ship to it > to making star dust out of it
to fertilizing our planet !

the message from planet two will be considered now ...

to our dear galactic counsel members

as you know

*we have arrived at our new home months ago !
taking inventory of all plants and animals
pathogens and toxins ...*

*atmospheric components being confirmed ...
animal population is in a very early state !*

*having selected a location for the new settlement !
like our first> at first planet ... at a river bank
in a desert within the tropics*

since the sun shining less than

*at first planet > we will be limiting the settlements
to the near equator ...*

*there are limited places for caves ... so >
we will later be building partially submerged housing there >
since the bank mostly does not have enough slope to it
and since there be no more need for
exclusively camouflaged housing ...*

we will be all moving into our new housing now >

*to be celebrating commanders day ...
all together on our new future planet !*

leaving the space ship two > at automatic command mode ...

*our dearest regards to all of you >
for having made this possible*

commander ss 2

the counsil members compose a reply and congratulations >
for the successful start of a new settlement
on the second planet ...

there while in a another galaxy >
the spirit of the commander !

still working on the evolution to a higher race >
there !

the harbor being down river
the space craft factory being at the hydro electric plant
up the river ... right here

many service work shops for all the technology used
note books having direct led screens ...
every pixel having one triple led
using less than 1 watt

the rest having only 100 mhz
and the OS being optimized

as well as all the applications for this

there is only one model for each use
and that being build to last a 1000 years

then at 11 they all coming together again to eating lunch
under the trees by the river ...

then at 1 pm they are going
to take place at the workers who are now hunting
and collecting for diner and the next day until 5 pm

then eating together with their families ...
after they are just resting and talking things over
so no problems are unsolved ... till at about mid night >
they are having a snack

to be sleeping again till the morning

there is no hierarchy ...

because this would be an alienation
and be a coming problem for all !

everything must be transparent >
everything must be understood by all !
only in an emergency > there is a command structure >
thus > in a spaceship > at a sea crossing >
so if there is no time for talks !

but even then all orders ... spoken
about in retrospect and reviewed by all ...
to find the better answer !

just as there is no democracy or theocracy ...
since only ... if all can agree >
the answer can be right !

and only if there is no time there will be >
temporary solutions used
till a better solution is found !

and should any individual or a group
not be responsible for our universe >
not willing to be responsive ...

then this necessity
will be carried forward with all force !

while there is every freedom to act on your own >
there must be no exclusion for any one or any thing >

everything must > stay part of the creation !
because as soon as anybody is excluded
he will be feeling alienated

then arises >>> a criminal association ...

and each organized crime on a world
even this whole universe > we will prevent !
there can be no freedom for the destruction of a people

or a world > and this is the core of our religion !

where there is no deception what so ever
only homo sapiens > knowing exactly > what they are doing >
and what effect this is having on eternity ...

> genesis <

> the emergence of the first homo sapiens in this universe

..... it happened in another galaxy
more than a billion years ago

>>> the suspension <<<

the location >
a space ship of the imperial forces on a reconnaissance flight
for a potential new colony

> the commander and his crew

being the members of a new religion
schedule the launching of quantum communicators
for the posting of fictitious place data intended
for the imperial center through robot ships

this data adhering to the prescribed course !
as well as some quantum communicators
for fictional communications

as soon as those are on the destination
they will fake the destruction of the command spaceship

the robot ships will then return
to the mother ship on the new course

the other quantum communicators
have already been secretly destroyed
through the removal of the entangled quanta
in these forever

therefore it will no longer be possible
to communicate with the imperial center

today the powers of the imperial center on this spaceship>
will be dis empowered and deposed on the nearby planet
only with the possibilities of primitive hunters and collectors

two robot ships will be left on this world
to enforce the conditions

create no signs for any one to see from space
no settlements plantings > markers
no radio or light ... fire sign development

otherwise they will be every time > be de powered > a method
the individual lying for hours in terrible pain

until they adhere to the conditions !

they should have time
for their gruesome slavery methods becoming conscious of !

at this meeting
the emperor notifying to his claims
as supreme commander and as the owner of the spaceship !

which is countered
that everything belonging to the creator of this universe
and we are just the managers of all !

that this ship was built by millions of hours through slaves
it being on time it will perform a righteous purpose !
use it for a decent way of life in this universe

after this meeting >
there remain only the emperor and 2 of his adjutants to be deposed of
since there are some minors of the imperial center > joining
the new mission> which provides

that the spaceship diagonally at this present course
going to a planet known only to them
but not by the imperial center
through

distortions made by the crew
but this region having been carefully explored >
providing ...

that the new ones are not found so easily

they could no longer stand watching
the slavery emanating from this empire
have for years thought of a way
to be sneaking a way

to live a simple and decent life in this universe!

and this priority for their future security
will from the beginning be their first priority

they will only create underground settlements
only collect naturally growing fruits and
catches of wild fish and ... hunting

until in a different galaxy
they can be sure of not be coming prisoners of this empire again

they will only use animal paths for their movements >
but they will not keep any animals

since this would be incompatible with their religion
because animals are no decent citizens
friends or neighbors !

they will of course not make any lights outside in the night
and absolutely no power broadcasting of radio waves !

they will for their communications >> their energy
use only wiring >invisible > underground

because their religion allowing no light at night any ways
except for orientation at their home and necessary news >
no distractions > no entertainment !

should later bigger settlements
on different continents > islands of their new world ... develop
then the quantum communicators for news etc
will be equipped with new entangled quanta
thus ensuring a secure transmission

they will make the spaceship invisible by perfect camouflage
for the transition use it for their food research + health care

and then later> when new generations have been growing up
colonize many other worlds with

to better the prospects for their survival !

this >

the story of the genesis of the modern homo sapiens
in many galaxies of this universe

their development of the technology
for un manned colonization to other galaxies

giving ... no other race to this day > the capability to attack us
as we settle on in principle only those galaxies
where no other technologically advanced race

and because we observe all evolution in our galaxies
long handed in advance each even the potential
of a threat to our way of life

the further development of the galactic religion
the galactic nation and its institutions in many galaxies
and of course> the history of the emergence of the

council galactic central

being a new meaning >
because it never is telling any one any thing
or being told what so ever

but just bringing forth the best solutions
every one can be agreeing on

this is therefore a documentary > no fairy tale
even though for a citizen of this planet
it may be sounding like a nightmare

since their empire their paradise >
at best a ... hypocritical ... seemingly decent
and their power position in it ...

the freedom to enslave others >
their highest priority !

because for people living honorably
responsibly is simply unacceptable for them !

the further development ...

> 10 years after <

after arriving here at our new home
we are preparing ... to live here!

by taking samples of all ... through a planet rover
from each plant > animal > vermin > pathogen

then we create vaccines > to live healthy
without diseases ... any deficiency or poisoning !

the new planet ...
a little smaller than our original
therefore everything is easier ...
to realize and much easier handling ...

our new sun ... a little smaller too >
having a rest life time ... we hope almost 10 billion years
having less UV radiation ... our year is much shorter ...

but as we will be on the border of the tropics and subtropics
the plants there still having enough time to mature

and because there are always different kinds growing
some thriving in the winter time
some in spring ... summer or autumn
we will be having no problems !

we explore a place on a river
the location being in a desert

but massively fed from a remote mountain range
where on both sides everything grows in abundance !

on the steep hills on one side
we build an underground settlement in the light tuff

where already natural caves exist by erosion
we are digging further inconspicuously
from these

for our underground settlement
where every morning the sun is shining in ...
to wake up every one !

then we are working in the work shops until lunch
afterward working outdoors ... getting animals and fish
until dinner ...

as well > we are having under the protection
of the trees along the river

the laundry ... baths ... and all big workshops set up
and the big kitchen ... because there to every thing
easier to transport to !

and there ... we as well are eating all together
afterwards only contemplation
and discussions with the family

the first children of this new world are growing up
and some appropriate after their training
will then colonize other worlds !

we are using the thermo nuclear generators of the robot ships
to having energy until we build bio gas plants
where all the bio waste will get in there

for cooking and preparing hot water!
for our gas power plant ...

afterward shall the mud again be supplied back to nature
as a fertilizer!

we do not want to use hydro power for now
until we are sure > that it will not expose our existence

so far > no report from the telescope on our spaceship
meaning no imperial ships or probes

we find crude fibers to weaving ...
for fabrics and making clothes !

we build an outrigger sailboat to crossing the river ...
and trips to the nearby coast ... where grass seeds are growing
and everything other we can use !

to getting all we need for the growing population

> the end of empire <

we learn from the robot ships ... left at the exile planet >
that the emperor and his two henchmen ... are death >

and many years later > that by losing the emperors ship >
the embarrassing dis empowerment on our part ...
even the empire itself sinking into chaos >
over all those riots and sabotage >

as the empire now headless > without true knowledge ...
and character >

every one trying just to savor rulers paradise !

resources squandering > contaminating the environment >
instigating wars > destroying all >

only for the preservation of their power ...

until only a few > in miserable existence remain !
from this empire will come no danger to us ...

but we know that not ... until much later!

> the first generation <

the children thrive in this heavenly environment
we do not have the slightest problem !

we can take on any problem immediately and directly address
to find a general realization >

the education of the spaceman going ahead as well ...
only no one really ... wants to get away from here >

therefore we decide > to first develop this world more >
before some of us leave it ...

to populate some other planet !

> the commander going his way <

he has developed a way
for immaterial remote sensing > other worlds
where higher animals have already developed >
to serve for the incarnation of our religion

he predicts >
that he will leave behind his body now for ever

and will go to another galaxy with out it
only his spirit

because the distance for manned flight
is much to large !

he will help the native population there
in their own system
developing towards

according to our religion

saving them from going into barbaric competitions
through incarnating him self
into the native population !

he informs some of us > of a means to call him
should we need him or he him self ... us >
but he can only with his spirit coming back to us >

his body we should bury after his death

.... the message

on the inter galactic frequency we receive one day
a wireless message > from a radio amateur ...
reporting of the end of the empire !

we are considering what to do ?
we could fly to another position
to not directly betray us ...

and reply from there ...
but what could help this ?
such a sick population as this there
no man can help with words !

there is not even a possibility
our intention ... our lives to describe there !
they would not believe us even

that there are homo sapiens in this universe!

and why would anyone want to limit itself
in its power ruling ... for to good of the future ?

if these offenders there
only just do not want to do this !

we could fly there >
and what could we do there ?

we could start a war
with these now stake holders
could free them > of their stupidity !

but who would want this ?
we want certainly no war
they want

only their irresponsible life !
this now crystal clear

so who then wanted to start a war ?
if not any danger

no chance of having any success ???

there is not even a real law and order there
not any real religion for homo sapiens !

no conscience > no haze of something other ...
only endless power play ...

and when we would free those slaves
and selecting a 1000 from the general public
and then flying them here

we would have 1000 potential tyrants here >
problems for our future !

there is a treatment for those >
but since they would have to want to first being healthy >
and which a disease wants to get ... well ?

we thought that it was just >>> the emperor !
but now we know > that it is also each and every one
tacking part in this >

because ... we could have taken part in this further
in this eternal game of the rulers paradise ...

where only the position of power decide >
how much does he savor !

how many resources squandered
how much the environment contaminated
how many people forever tortured to death!

of course ... we will not reply >
as we never send out radio waves !
which can leave our world ...

we shudder only ... if we think of all of these !

it is not just about our security >
it is about the future of this whole universe

100 years after

we have many settlements on our world
we visit with our vector fin outrigger sailboats
and deliver key parts

we build solar power freighters for inland navigation
and areas with little wind

we have at a waterfall ... far above our river
a hydro electric power plant ... installed underground >
and on the cliffs there >

a roof with vegetation on top camouflaging a factory
for our robot ships and space ship production ...

for ground transport > we build desert rovers >
with solar powered electric drive ...

of course bicycles
with direct front wheel hub drive !

we stay young through proper eating
and as well exercise every day in the sunshine ...
of course because of our satisfaction!
and because we know

to be doing the right thing

we use> the thermo nuclear generators >
from our robot ships etc > after exchange >
for a long time coming !

for example in the settlement area
where the weight factor / current output are of no concern

then after centuries using them there > the remains
are smashed further by artificial neutron bombardment
till these residual isotopes to becoming lead
nontoxic

over the whole period of time ... the waste heat
continue to be used or the electricity produced

of course we will mine the uranium > for this to begin with
safe > meaning underground > and with mine robots

so there will not only be no danger> created for the environment
but de facto > the radiation dose from this natural source
even be reduced in the long term

the whole production process of this thermo generators
and their reuse conversion >

will of course be done with robot systems
and monitored by us via video continuously

our pcs have ... inclusive monitor
a power consumption of < 1 watt equivalent

because our programs are so optimized
that they are only some mbs

and consequently only need a few mhz !

there is only one kind for any purpose
so there are spare parts and renovation for
millions of years guaranteed

our lighting fixtures have led >
and by over sizing them >

therefore maximum efficiency >
use only a few milli watts >
under difficult working conditions ...

about one watt
and they are functioning some millions of hours

of course we apply sun radiation via mirror deflection
in our workshops > wherever possible

of course we work normally only in the day time
and our lighting is for guidance mostly
in our living places at night ...

1000 year after

we scan further along our space environment
crumble all meteors > which are dangerous to us
so they fall as star dust only

we visit for the first time our world of origin !
and film the destruction caused by endless wars
and the exploitation of resources

but never make contact with the few survivors
there because of lack of metals > are living ...>
dying like in the stone age !

we as well are also making no contact
with any vermin and predatory animals

who simply have no use for our way of life
are pure creature of instinct ...

slaves to their criminal environment !
simply atrocious ...

compared with us > where you can not even see
that there are people living > because we save each screw
every piece of metal and reuse every thing !

never make anything out of order
or build it just for a limited time
but for an eternity

although we seem to have no enemies anywhere
but just for the esthetics > we camouflage all technology
laying high voltage dc lines in the river

all the others ...
can be camouflaged in an emergency!

a million years after

our original world ... does not ... have any more people
on it ... because of the contamination everywhere ...
the lack of resources and foresight

and because of this hopeless stupidity
they are gone extinct ... bored to their own death

we have now settled several other worlds in our galaxy
and through immaterial mind transfer > some other galaxies
for our life as homo sapiens

there are no wars > no contamination >
no hunger in our civilization any where
because all ... are part of every thing ...
all have the possibility

within the line of the universe
to realize all we want

we show our videos ... of our former world
in social political ... and religious lessons !

and no one can believe it >
that there is such a mentally handicapped population possible !

we exchange ideas via mental visits with the other galaxies
as well our former commander

being the beginning of the council galactic central
as well the beginning of the galactic nation existing already !
we continuously contact all via quantum communicators ...

the galactic religion ... the essence of our life > perfected
seeing any risk for our intelligent life ... long ahead
having an answer for everything !

everyone can be helping to perfect ...
we all want to live in a paradise for all ...

where there are no victims > no perpetrators
no shame > no conceit all true and real

paradise every where !

one billion years later

we are represented in many galaxies >
by mental transfer

through the incarnation in advanced animal bodies !

and over all this time to have our idea
endlessly proven ... the homo sapiens race !

only there was ... just mean idiot selection
created by such a stupid idea > as this world here

where one idiot with the other competing >
to all these idiots delight ... in their insanity >
the great stupidity their mass of enslavement !

creating meaningless jobs !
see house hold delivery of toxins !
people being driven to freak out!
to preventing any solutions !

see this planet satan here

the satanic strategy ...

that anything that harms is allowed
so every enslavement

and any real help is prohibited
so every liberation

everything worthy of a human

we do not have
a human rights state

Article 1

(1) Human dignity shall be inviolable.
To respect and protect it shall be the duty of all state authority.

(2) The citizens therefore
acknowledge inviolable and inalienable human rights
as the basis of every community,
of peace and of justice in the world.

(3) The following basic rights shall bind the legislature,
the executive and the judiciary as directly applicable law.
